Team Family Feud is a great ice breaker event to get everyone to know one another a little better to kick off a conference or as a break out activity. Based on the popular game show, the group is split into teams, each representing a family as they face off head to head in series of hilarious rounds.

The event can be customised by having participants complete a set of tailored online survey questions. The results of this survey are then tallied and used for the event, allowing everyone to learn a little bit more about their colleagues, interests, hobbies, personality traits etc.
